

PureWave Water Cooler

Say goodbye to storing bottles, paying deposits, heavy lifting and say hello to premium pure water and one low payment.

Everpure Quantum Features

Provide unlimited amounts of great tasting, sparkling clear drinking water at your finger tips. The Quantum 1000 Drinking Water System which tucks neatly inside the cooler provides absolute 1/2 micron filtration removing up to 99.9% of all particles like dirt, lead, asbestos fibers, and harmful cysts such as Cryptosporidium and Giardia lamblia. Chlorine and other offensive tastes and odors are eliminated. You are left with clean, pure, and delicious drinking water for a fraction of the cost of buying it in bottles.

The Quantum 1000 Drinking Water System is an Everpure "Precoat " product, world renowned as the standard of excellence in water filtration.

Stylish and modern cooler design available in three colour choices.

PureWave Cooler Features

This water cooler is the heart of our PureWave collection, a new generation of modular water coolers, which offer flexibility, superior hygiene and easy maintenance. All components that come into contact with drinking water can be disassembled without any tools for easy cleaning. All these parts are dishwasher-safe. Here are other features offered with this product:

- Very strong polyethylene body for better scratch resistance
- Matching filter cover
- Adjustable cold water thermostat
- Removable cold water tank
- The "no spill system" is a standard feature
- Oval plate/drip tray: integrated in the front panel
- High flow faucet with removable nozzle for easy cleaning
- Nozzle with 2 layer design to prevent fingers from touching area in contact with water
- 3 color combinations: white/black, silver/black, charcoal/black
